OBJECTIVE

I am Learning Web Development at Programming Hero. I learn many things here, like React JS, Javascript, Firebase, MongoDB and more interesting topics. I am a focused and dedicated learner. I made many projects on those topics and I got a comfort level in some of them.

PROJECTS

Skill Up *(A Skill Learning React App)*
I created that project with React JS, Firebase Authentication and some more interesting features.
● Design is created by React JS and Tailwind CSS
● I implemented some authentication system here by firebase and loaded the data from a server.
● I don't add a payment method but as soon as possible I implement the payment method and it has a theme toggle.
● Time Duration to do this project: 4 days

Khaiyalamu *(A Cloud Kitchen React App)*
This project was created by React JS, Firebase, MongoDB and has some awesome features. It is cloud kitchen react app for selling foods
● I use React JS here for the JS library , Tailwind CSS for the CSS framework , Firebase for authentication and MongoDB for the back-end.
● Some Review giving functionality was added on this project and I made a CRUD operation on it by MongoDB.
● CRUD operations functionality is added on the review section
● Time Duration to do this project: 4 days

SKILLS

Expertness:

● Javascript
● React JS
● React Router
● Firebase
● HTML
● CSS
● Bootstrap (CSS)
● Tailwind CSS (CSS)
● Daisy UI

Comfortable:

● MongoDB
● Node JS
● Express JS
● Netlify
● Vercel
● REST API
● Axios
● React Query

Tools:

● GitHub
● Figma
● Chrome Debug Tool

EDUCATION

Bachelor of Arts - (Nov 2022 - present)
Rangpur Government College, Rangpur

COURSES

Complete web development with jhankar mahbub - programming hero

LANGUAGES

● Bangla (Native)
● English (comfortable)
